MAKING POLICIES ACTUALLY USEFUL

Your Personalized Guide
to Understanding
Governance Policies

The Problem

Lack Of Understanding

Understanding government policies can be overwhelming. Many people struggle to interpret complex legal language, making it difficult to grasp how policies impact them

Lack Of Time

With busy schedules, people often lack the time and patience to analyze lengthy documents and follow news updates to understand new policies

Eye-Opening Analysis

The Best Case Scenario

About 11.54% of the respondents are very well aware of recent government policies and possess the know-how on efficiently leveraging them in their day-to-day lives

The Good Scenario

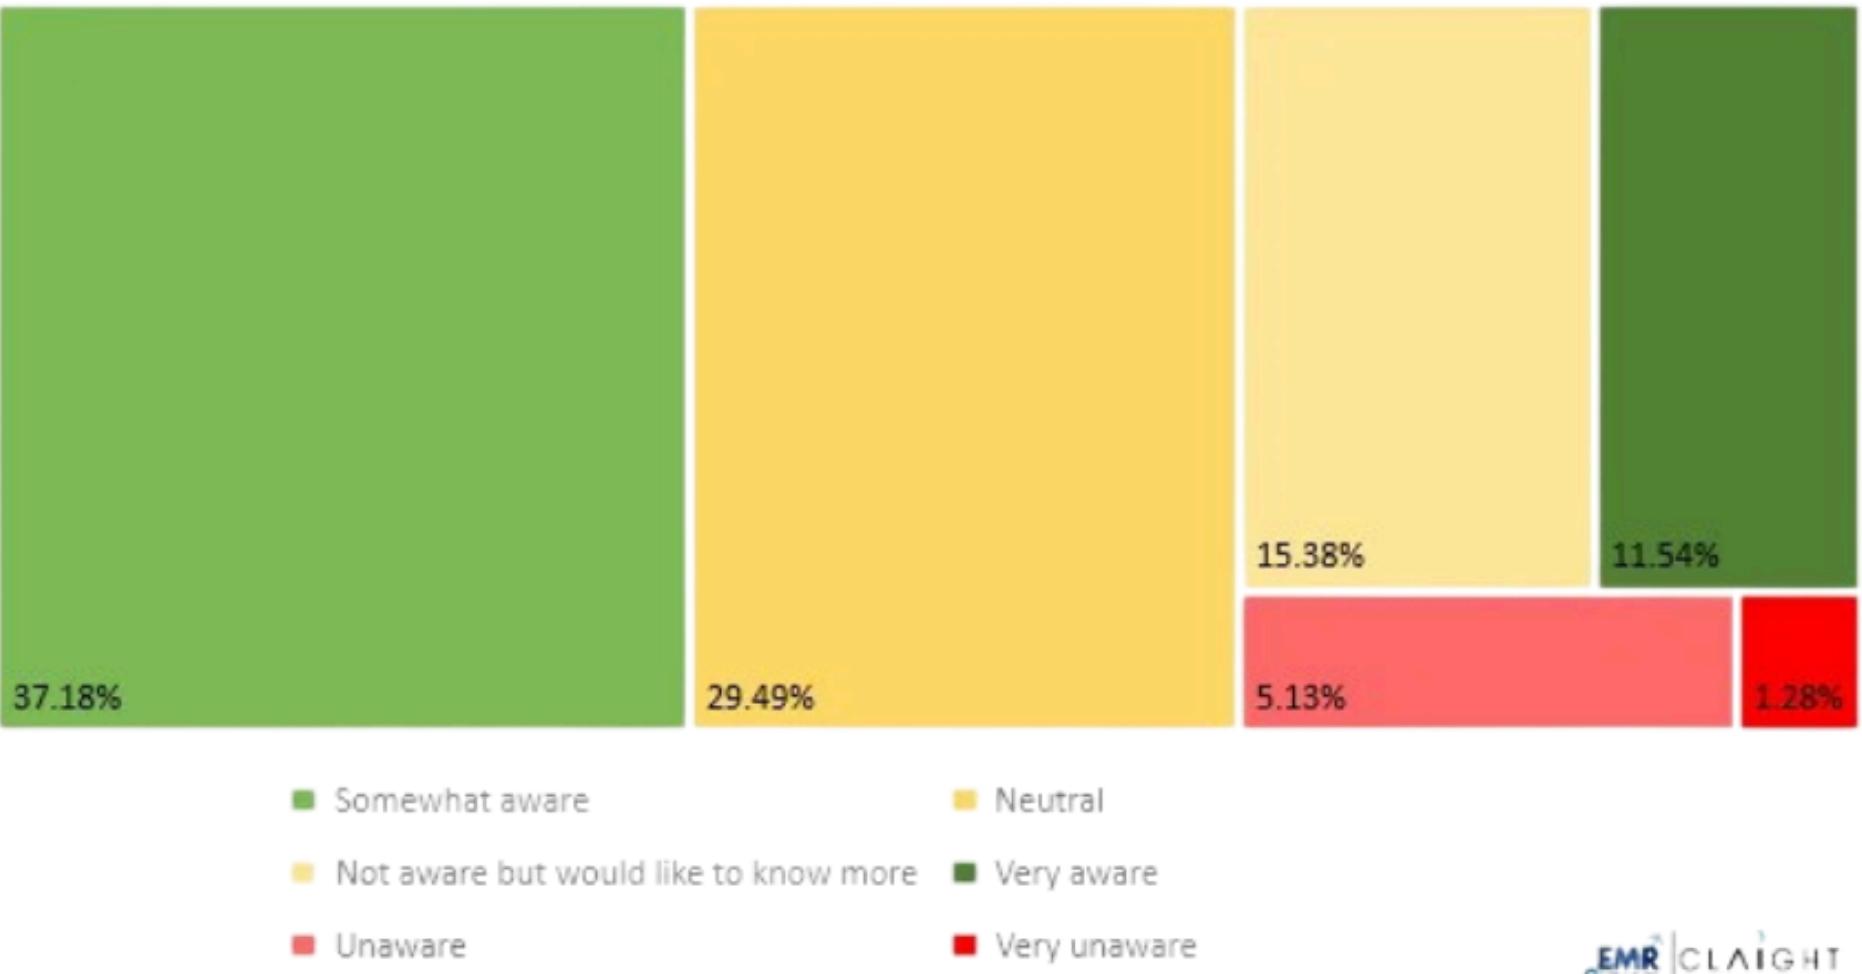

About 37.18% of the respondents have a reasonable idea about recent government policies

The Bad Scenario

About 29.49% of the respondents are not aware pf recent government policies but are ready to take the initiative to know more and build self-awareness

The Worst Scenario

About 6.41% of respondents lack any kind of understanding of important government policies and it is vital that these group of people must be benefitted the most from this AI-Powered solution

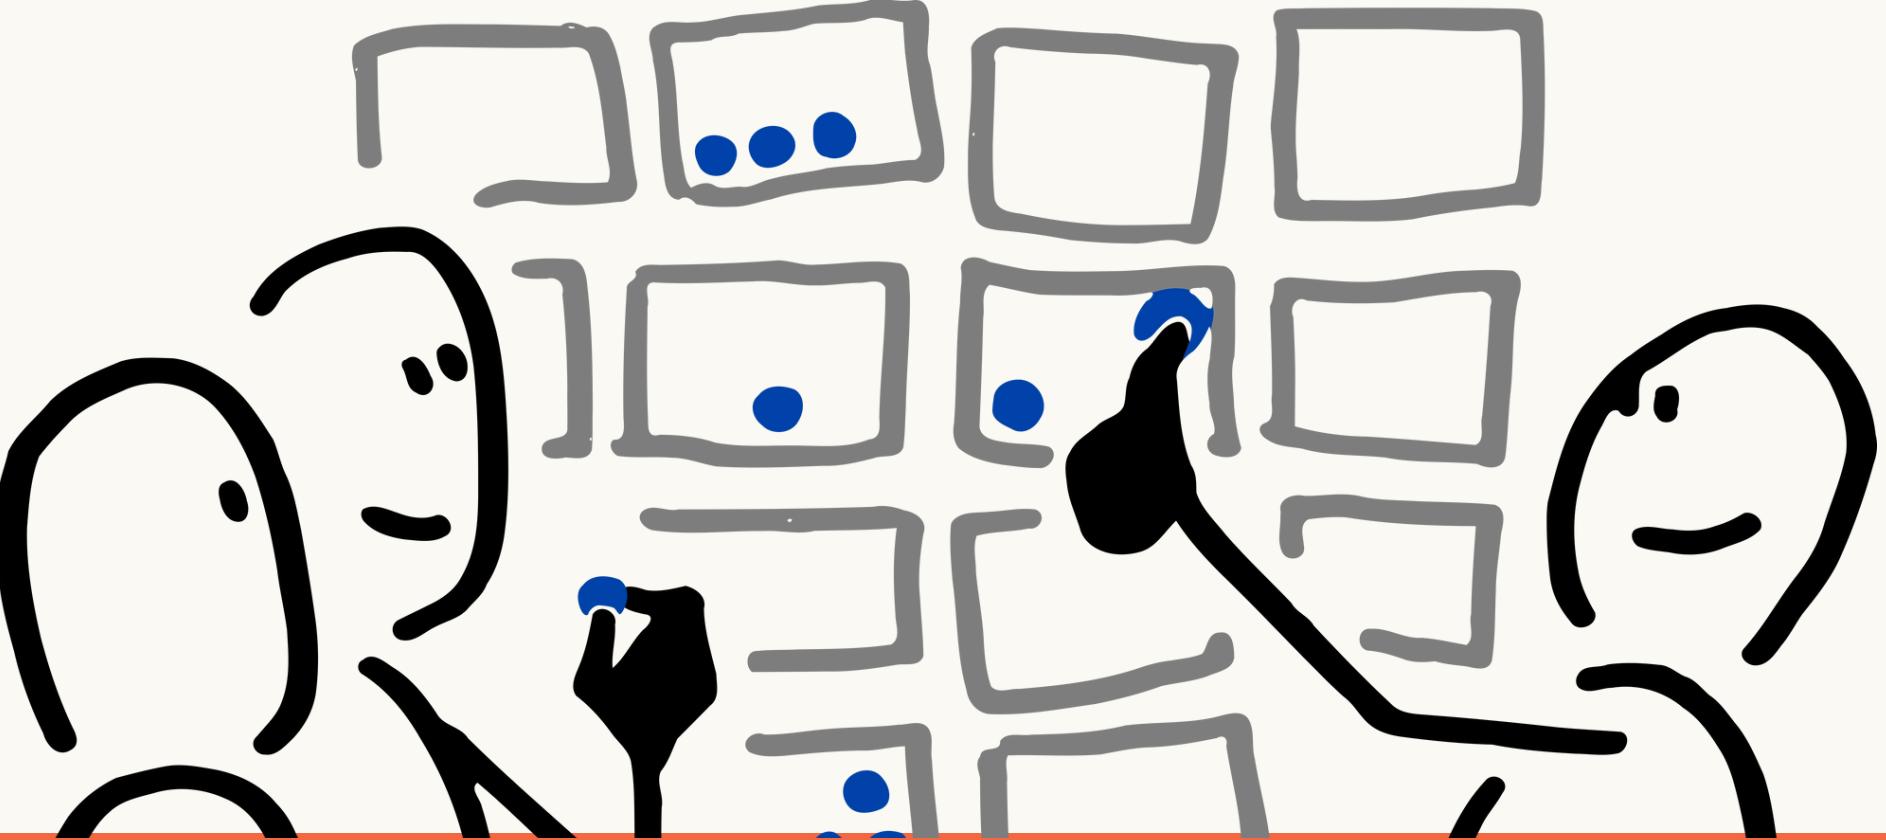

What is PolicyGyaan ?

PolicyGyaan is a comprehensive platform designed to make government policies easily understandable and accessible to citizens. Our goal is to bridge the gap between complex policies and the people they impact, providing personalized insights to users based on their age, profession, location, and more

Impacts of PolicyGyaan

Personalized Policy Insights for Every Citizen

Tailored information based on user profiles like age, profession, and location

Simplifying Complex Policies for Better Understanding

Breaking down policies into easily digestible formats, ensuring clarity for everyone

Empowering Informed Decisions and Greater Civic Engagement

Enabling each and every citizen to take informed actions and actively participate in government initiatives.

Empowering Policies

Helps Everyone Understand Governance Policies

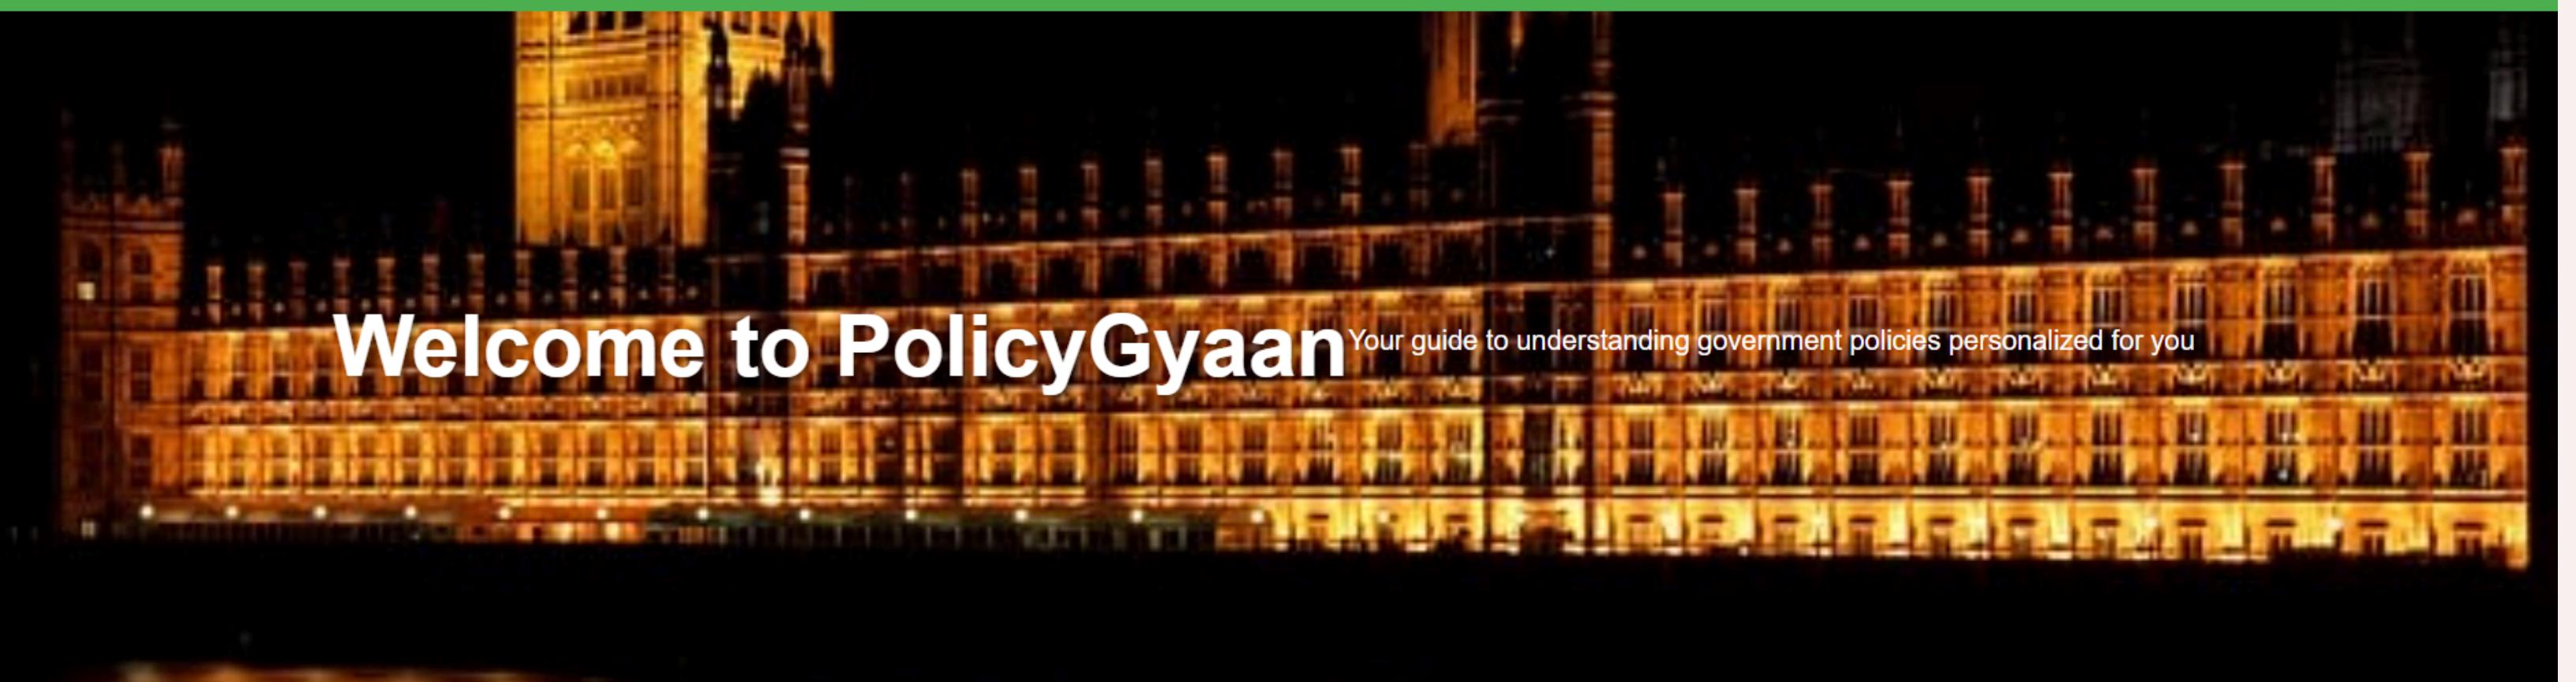

HOW IT WORKS ?

PROGRESS ON THE PROTOTYPE

PM Internship Policy

Policy Overview

The PM Internship Policy aims to provide young students with practical exposure to government work and policy-making. This initiative is designed to create future leaders by offering internships at various government departments, ministries, and organizations.

Impact on You

As a 24-year-old male student, this internship will allow you to gain valuable insights into government functioning and policy formulation. You'll be able to work on real-life projects, network with policymakers, and gain professional skills that will enhance your employability and leadership capabilities.

History

The PM Internship Scheme was launched in 2019 with the objective to provide internships to young students and create a pool of talent for the government sector. Over the years, the scheme has seen tremendous participation and is helping bridge the gap between academic knowledge and practical application.

PROGRESS ON THE PROTOTYPE

environmental sciences.

History

The BioE3 Policy was introduced in 2020 as a part of India's commitment to environmental sustainability and technological innovation. Its primary goal is to empower students, researchers, and professionals in bioengineering to develop and implement eco-friendly solutions to global environmental problems.

Key Benefits

- **Cutting-Edge Research Opportunities**: Gain hands-on experience in the latest bioengineering technologies.
- **Career Advancement**: Enhance your career prospects in bioengineering, green technologies, and sustainability.
- **Access to Funding**: Opportunities for students to apply for research grants and internships.
- **Environmental Impact**: Contribute to sustainable solutions that can positively impact the environment.
- **Government Support**: Get guidance from government agencies and industry leaders in the bioengineering field.

Challenges

- **High Competition**: The policy has attracted a large number of applicants due to the promising opportunities.
- **Research Complexity**: Bioengineering projects often involve complex and highly technical research.
- **Funding Limitations**: Although there is funding, competition for grants can be fierce.

THANK YOU
